

THEFT DETERRENT HIGHLIGHTS

A traceable identifier makes your vehicle less attractive to thieves

PROGRAM HIGHLIGHTS

Theft deterrent labels chemically etch a unique identifier in the vehicle's paint that is only visible under blue light. This unique identifier is tied to the VIN and the owner's contact information. These labels are applied to the door jambs, hood, and trunk lid/tailgate of the vehicle. Would-be thieves are likely to think twice when the vehicle is marked with a unique identifier that can be traced by police.

BENEFITS

- Up to \$5,000 benefit for a stolen, unrecovered vehicle
- Up to \$1,000 insurance deductible reimbursement if the damaged vehicle is recovered
- Five-year term
- Rideshare eligible*

Valuable features included with coverage if vehicle is stolen
